

Daboo's Heroes

STORY

On a faraway planet Dobo is a worldly renowned hero. He's inspired the work of millions of people.

But something very serious happened. Dobo has lost that sparkle in his eyes and, little by little, started to get stuck in his own thoughts, creating blockings, shutting himself in a dark room.

After a short time, Dobo didn't seem the same anymore, but few could see him, because he set himself apart from everybody else.

Fortunately his family, especially his grandchildren, are making an effort to get him out of his dark room and bring him back to life.
